Pro-Par® ABS ECU Valves & Accessories

Engineered for Superior Strength & Reliability

Pro-Par ABS ECU Valves combine cutting-edge anti-lock braking technology with enhanced connectivity and simplified installation to deliver a superior performance that reduces downtime for fleets.

FEATURES & BENEFITS

- **Built-In WiFi Diagnostic Access:** provides direct access to fault codes and diagnostics from a smartphone, tablet, or laptop. No proprietary tools required.
- **Smart ABS Control Logic:** processes fault codes internally, eliminating the need for external software and reducing downtime.
- **Versatile Sensor & Modulator Support:** available in 2S/1M or 4S/1M configurations, with valve and adapter cable options for flexible installation.
- **Easy Installation & Replacement:** designed as a drop-in replacement, these units simplify installation and maintenance.
- **Enhanced Fleet Diagnostics & Connectivity:** helps fleets identify issues quickly, improving uptime and reducing costs.
- **Multiple Application Options:** sensor options available for WABCO-style, Meritor-style, Haldex-style, and Bendix-style applications.
- **Accessories:** including ABS sensor extension cables, MBS control and closure units, tone rings, and ABS sensor clips. These help minimize rewiring or modification making servicing existing systems easier.
- **Hassle-Free Guarantee Warranties:** ECUs are backed by a 3 year, unlimited mile warranty, and valves with a 1 year, unlimited mile warranty.
